

Academic Interaction

Prof. J. P. Chakraborty (Department of Chemical Engineering, IIT BHU), also visited the Department of Chemical Engineering as a part of Academic Interaction, for addressing several issues related to energy conservation, energy sustainability and related sustainable approaches. He also discussed about several alternatives such as entrepreneurship, internship

project in collaboration with copious overseas opportunities to a large group of young, enthusiastic and energetic budding Chemical Engineers on 24.05.2017 for a one day detailed interaction. A total of 50 students attended the session and enjoyed with great contentment.
