

Ship visit at Kidderpore Dock by the students of Chemical Engineering department

On 6th of May 2017, students of Chemical Engineering Department, DIATM Campus got their first opportunity to visit a ship named “Express Hooghly” at Kidderpore Dock, Kolkata. It was an inflammable goods carrier discharging cargo.

The groups of __ students were guided by the HOD of Chemical Engineering department, Dr. Projjwal Sarkar and the captain of the ship, Mr. Uday Dutta. They were able to learn the process that how crudes are getting converted into oil and how the recycling process of the spent oil is taking place inside the ship.

There after lunch was provided to all at around 2:30 pm. At 3:00 pm the post lunch session of discussion took place from where it was left over. At around 5 o' clock the session of ship visit comes to an end.

Over all, the students' took keen interest in the first time ship visit. An excellent achievement and we look forward to more visits, exciting reports and learning experiences from them.
